A newsy letter from Mrs. Hilda Mitchell Bucksey, of Missouri, sends greetings to her many friends in Appomattox. The daughter of the late Mr. and Mrs. E. T. Mitchell, of Appomattox, she is invited to visit Appomattox in '76.

It has been educational for me to observe what goes on at a major hospital. Brightleaf reported that off-duty nurses made the rounds one evening singing Christmas Carols. And how about this: At Lynchburg General the Dietary Department employs over 100 people, prepares more than 600 meals daily for patients and 1,000 meals for employees and visitors, featuring seven different diets, and a daily grocery bill of $1,425.00. Wow!

ACHS girls' basketballers are continuing their winning ways. Undefeated thus far. The boys are still hoping for a good season. Sidelight item: The junior team at Altavista is nicknamed the Lt. Colonels.

I extend a special greeting to the staff of the **Times-Virginian** for a great job this year. And to the rural correspondents whose neighborhood items add so much. And to the advertisers who make it all possible. May our Heavenly Father bless us all, may Santa Claus remember each and everyone, and may 1976 see us rolling into a Bicentennial observance with dignity and dedication to keeping America great. Thanks for reading and seeya next issue.

Winter Is Here

Today, December 22,1975 is officially the first day of winter, but as this is being written on Saturday morning, we could easily believe that "old man winter" is already here.

For the past several days the temperatures have dropped to low teens and after the unseasonably warm days we have been having, it really makes you feel the cold much more. Weather forecaster predicts warming trends for our area- let holiday travelers get to their destination safely and then a pretty snow would make the holiday season perfect.

Smiling faces reveal the feeling of delight as Mrs. Dianne Scruggs, Philosophy Committee, and Mrs. Virginia Cyrus, School-Community Committee hand their committee reports to the Steering Committee chairman, Mrs. Carolyn Coleman. Mrs. Coleman chaired the faculty meeting on December 15 which was held at the Media Center. Refreshments added to the gaiety and celebration of the formal adoption of self-study reports by the K-6 faculties of the Appomattox Elementary and Primary Schools.

On the right, Mrs. Mary Ann Almond,(seated) prepares agenda and schedule of meeting dates with the Pupil Service Committee. Mrs. Almond, chairman, held an organizational meeting on December 16. Virginian Invents Tree De-Limber

Kenneth R. Dawson, of Rustburg, Va. has invented apparatus designed to simplify the task of trimming limbs from trees. It includes a pair of semi-circular curved blades with each blade mounted to an arm. A hydraulic cylinder or spring is used to apply bias force to the two arms so that cutting is rapid and easy. The invention is covered by patent applications now pending in the U. S. and Canadian Patent Offices and is being introduced to manufacturers with the help and guidance of the Raymond Lee Organization.

According to Raymond Lee, founder-president of the Raymond Lee Organization, "Almost everyone has invented something at one time or another, usually in connection with his home, hobby or occupation. We believe there are many ideas which could be of interest to industry if their inventors would come forward." Says Lee, "Our company helps independent inventors throughout the U. S. and Canada with the commercial development and presentation of their ideas to industry."

An Inventor's Kit with information on how to develop, safeguard and market your invention may be obtained free of charge by requesting Kit No. IM from the Raymond Lee Organization, 230 Park Avenue New York, N.Y. 10017.
